

# Listen to Yourself

## **WEDGE SERIES** **Active Stage Monitors**

WEDGE Active Stage Monitors are coaxial, bi-amped systems offering in compact, low-profile cabinets a perfect sound intelligibility, an impressive SPL and an exceptional resistance to feedback for a hassle-free, high-performance live monitoring.

Available in three models (10", 12" and 15") that can suit different stages and different monitoring requirements, WEDGE monitors are the favourite choice for musicians who need to listen any details of their performance, even in the most critical live situations.
